GUN WORKS DESTROYED.

On Friday last, in Pittsburg, a fire broke out in the Great Western Gun works, situated on the corner of Wayne and Penn streets, in the Fourth ward, resulting in the entire destruction of

of the gun works was stored a large amount of Government ammunition. This storehouse ran parallel to Penn street. It is stated that a large number of loaded guns were stored in the works and this Government depot, explosion followed. The loaded guns were discharged in every direction, endangering the lives of the firemen and large numbers of spectators, who

flocked to the scene. The buildings in the vicinity of the Gun Works were riddled with bullets; a large number of the windows in the Ft. Wayne building were broken, some of the bullets entering the Telegraph office taking the operator by surprise. The outside of the building was covered with bullet marks, the balls principally passing over the heads of the crowd below, and whistling in a manner not at all agreeable. The rear windows of the adjoining stores on Liberty steet were also riddled by bullets.

One man was killed by the flying missiles, and several injured, two or three mortally.

A few reseems why SINGER'S latest improved SEWING MACHINES are the best for Fain-

and the second Purposes.

1st. You can sew anything from the finest single thickness of Swise or Nameook to several thicknesses of the heaviest Beaver cloth, using any kind or size of thread with equal incidity, from No. 20 Cotton up to the insviest patent or Linen thread.

2d. It mest a short, straight needle, easily see, and makes the popular Lock Stitch slike on he to sides. 3d, It has an even self-adjusting tension which 3d. It has an even self-adjusting tension which requires no change frofficeent the knesses of material or different sizes of thread.

4th. It is free from all springs, wires and other complications, and is almost nelseless.

5th. No taxeds to hold or wheels to turn in a starting.

6th. It does not have to be taken apart to oil and clean it.

7th. It has a perfect feed whereby you can sew the linest materials without having to keep you work stretched to prevent its "puckering," and you never have to assist the work through as in all other machines.

8th. It will hem any width, sow a straight seam, or make a self in the most perfect manner, with less skill than is required to saw a straight seam on any other machine.

Its attachments for lividing, Conding, Quilting, Binding, Tucking, &c., are novel and practical, and require but live skill to use them.

Carcuit instructions siven at the house of the purchaser.

Money refunded it the machines are not as purchaser.
